EXCHANGE RATE INFORMATION

The majority of our current revenues are denominated in H.K. dollars, while our current expenses are denominated predominantly in Patacas and H.K. dollars, and in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. The non-financial pages of this quarterly report include all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars at a rate of HK\$7.7542 to US\$1.00, unless otherwise noted.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on March 31, 2020 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.7513 to US\$1.00. On May 15, 2020, the noon buying rate was HK\$7.7511 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Pataca to U.S. dollar in the non-financial pages of this quarterly report were made at the exchange rate of MOP7.9868 = US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2019. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Summary of Financial Results

For the first quarter of 2020, our total operating revenues were US\$0.72 billion, a decrease of 41.7% from US\$1.24 billion of total operating revenues for the first quarter of 2019. The decrease in total operating revenues was primarily attributable to softer performance in all gaming segments and non-gaming operations at City of Dreams and Altira Macau, as well as decreased casino revenues generated from the operations of Studio City Casino by our subsidiary, Melco Resorts Macau, the gaming subconcessionaire, as a result of the temporary casino closure in Macau and enhanced quarantine and social distancing measures to mitigate the COVID-19 outbreak in the first quarter of 2020. Net income from Studio City Casino gaming operations are reimbursed to Studio City Entertainment pursuant to the Services and Right to Use Arrangements. Such reimbursement is included in general and administrative expenses.

Net loss for the first quarter of 2020 was US\$168.4 million, compared to net income of US\$119.0 million for the first quarter of 2019. The decrease in profitability was primarily attributable to softer performance at City of Dreams and Altira Macau mentioned above, higher interest expenses and net foreign exchange losses in the first quarter of 2020.

The following summarizes the results of our operations:

	Three Months Ended	
	March 31,	
	2020	2019
	(In thousands of US\$)	
Total operating revenues	\$ 722,154	\$ 1,239,530
Total operating costs and expenses	\$(771,884)	\$(1,095,019)

City of Dreams First Quarter Results

For the quarter ended March 31, 2020, total operating revenues at City of Dreams were US\$497.8 million compared to US\$745.3 million in the first quarter of 2019. The decrease in total operating revenues was primarily a result of a softer performance in the mass market table games and gaming machines segments, as well as lower non-gaming revenue.

Rolling chip volume was US\$8.65 billion for the first quarter of 2020 versus US\$10.25 billion in the first quarter of 2019. The rolling chip win rate was 4.11% in the first quarter of 2020 versus 3.42% in the first quarter of 2019. The expected rolling chip win rate range is 2.85% - 3.15%.

Altira Macau First Quarter Results

For the quarter ended March 31, 2020, total operating revenues at Altira Macau were US\$52.9 million compared to US\$133.1 million in the first quarter of 2019. The decrease in total operating revenues was primarily a result of softer performance in all gaming segments.

Rolling chip volume was US\$1.38 billion in the first quarter of 2020 versus US\$4.96 billion in the first quarter of 2019. The rolling chip win rate was 4.48% in the first quarter of 2020 versus 3.81% in the first quarter of 2019. The expected rolling chip win rate range is 2.85% - 3.15%.

In the mass market table games segment, drop was US\$64.4 million in the first quarter of 2020 versus US\$139.2 million in the first quarter of 2019. The mass market table games hold percentage was 30.4% in the first quarter of 2020 compared with 22.4% in the first quarter of 2019.

Other Factors Affecting First Quarter Earnings

Total net non-operating expenses for the first quarter of 2020 were US\$119.4 million, which mainly included interest expenses of US\$42.3 million and net foreign exchange losses of US\$76.2 million which mainly arose from the receivables from affiliated companies denominated in foreign currencies, compared to total net non-operating expenses of US\$25.0 million for the first quarter of 2019, which mainly included interest expenses of US\$25.7 million, partially offset by interest income of US\$0.8 million.

Liquidity and Capital Resources

We have relied and intend to rely on cash generated from our operations and debt and equity financings to meet our financing needs and repay our indebtedness, as the case may be. We expect to have significant capital expenditures in the future as we continue to develop our properties. Any other future developments may be subject to further financing and a number of other factors, many of which are beyond our control.

As of March 31, 2020, we held cash and cash equivalents of US\$550.7 million and the HK\$7.80 billion (equivalent to approximately US\$1.01 billion) revolving credit facility under the 2015 Credit Facilities was available for future drawdowns, subject to satisfaction of certain conditions precedent. Further, the 2015 Credit Facilities includes an incremental facility of up to US\$1.3 billion to be made available upon further agreement with any of the existing lenders under the 2015 Credit Facilities or with other entities.

[Table of Contents](#)

Following the entry into the 2020 Credit Facilities and the loan repayments and commitment cancellations of the 2015 Credit Facilities, HK\$12.12 billion (equivalent to approximately US\$1.56 billion) of the revolving credit facility under the 2020 Credit Facilities and a HK\$1.0 million (equivalent to approximately US\$129,000) revolving credit facility under the 2015 Credit Facilities are available for future drawdowns, subject to satisfaction of certain conditions precedent.

Net cash used in investing activities	(45,894)	(42,879)
Net cash provided by (used in) financing activities	256,584	(8,059)

Cash and cash equivalents at end of period	<u>\$ 550,718</u>	<u>\$ 739,233</u>

Operating Activities

Operating cash flows are generally affected by changes in operating income and accounts receivable related to VIP table games play and hotel operations conducted on a cash and credit basis and the remainder of the business, including mass market table games play, gaming machine play, food and beverage, and entertainment that are conducted primarily on a cash basis.

Net cash used in operating activities was US\$317.5 million for the first quarter of 2020, compared to net cash used in operating activities of US\$90.7 million for the first quarter of 2019. The change was primarily due to the softer performance of operations as described in the foregoing section.

Investing Activities

Net cash used in investing activities was US\$45.9 million for the first quarter of 2020, compared to US\$42.9 million for the first quarter of 2019. The change was primarily due to an increase in capital expenditure payments during the first quarter of 2020.

Net cash used in investing activities of US\$45.9 million for the first quarter of 2020 mainly included capital expenditure payments of US\$45.9 million.

Net cash used in investing activities of US\$42.9 million for the first quarter of 2019 mainly included capital expenditure payments of US\$42.9 million.

Our total capital expenditure payments for the first quarter of 2020 were US\$45.9 million, compared to US\$42.9 million for the first quarter of 2019. Such capital expenditures for both periods were mainly associated with our development projects as well as enhancement to our integrated resort offerings.

[Table of Contents](#)

Financing Activities

Net cash provided by financing activities amounted to US\$256.6 million for the first quarter of 2020, which primarily represented the proceeds from the drawdown of the revolving credit facility under the 2015 Credit Facilities of US\$251.5 million.

Net cash used in financing activities amounted to US\$8.1 million for the first quarter of 2019, which primarily represented the scheduled repayment of the term loan under the 2015 Credit Facilities of US\$11.2 million, partially offset by funds from an affiliated company of US\$3.1 million.

Indebtedness

The following table presents a summary of our gross indebtedness as of March 31, 2020:

	As of March 31, 2020
	(In thousands of US\$)
2025 Senior Notes	\$ 1,000,000
2026 Senior Notes	\$ 500,000
2027 Senior Notes	\$ 600,000
2029 Senior Notes	\$ 900,000
2015 Credit Facilities	\$ 252,593
	<u>\$ 3,252,593</u>

In March 2020, Melco Resorts Macau partially drew down HK\$1.95 billion (equivalent to approximately US\$251.5 million) from the revolving credit facility under the 2015 Credit Facilities.

On April 29, 2020, MCO Nominee One Limited entered into the 2020 Credit Facilities with a syndicate of banks.

On May 6, 2020, MCO Nominee One Limited drew down HK\$2.73 billion (equivalent to approximately US\$352.1 million) of the revolving credit facility under the 2020 Credit Facilities and, on May 7, 2020, used such proceeds to repay all outstanding loan amounts under the 2015 Credit Facilities, together with accrued interest and associated costs, other than HK\$1.0 million (equivalent to approximately US\$129,000) which remained outstanding under the term loan facility.

Recent Developments

The COVID-19 outbreak continues to have a material effect on our operations, financial position and prospects during the second quarter of 2020.

Our operations continue to be impacted by significant travel bans, restrictions and quarantine requirements imposed by the governments in Macau, Hong Kong and certain provinces in China on nearly all visitors traveling to and from Macau. Additionally, health-related precautionary measures remain in place at all of our properties, which could impact visitation and customer spending.

As the disruptions from the COVID-19 outbreak are ongoing, any recovery from such disruptions will depend on future developments, such as the duration of travel and visa restrictions and customer sentiment, including the length of time before customers will resume traveling and participating in entertainment and leisure activities at high-density venues, all of which are highly uncertain.
