Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those contained in any forward-looking statement. These factors include, but are not limited to, (i) growth of the gaming market and visitations in Macau, (ii) capital and credit market volatility, (iii) local and global economic conditions, (iv) our anticipated growth strategies, (v) gaming authority and other governmental approvals and regulations, and (vi) our future business development, results of operations and financial condition. EXCHANGE RATE INFORMATION

The majority of our current revenues are denominated in H.K. dollars, while our current expenses are denominated predominantly in Patacas and H.K. dollars, and in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at the rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on June 29, 2018 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.8463 to US\$1.00. On August 24, 2018, the noon buying rate was HK\$7.8496 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Pataca to U.S. dollar in this quarterly report were made at the exchange rate of MOP8.0134 = US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2017. Our unaudited condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements for the year ended December 31, 2017, except for the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers (Topic 606)* (“New Revenue Standard”) using the modified retrospective method on January 1, 2018. Amounts for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior period amounts are not adjusted and continue to be reported in accordance with the previous basis. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Summary of Financial Results

For the second quarter of 2018, our total net revenues were US\$1.06 billion, a decrease of 6.3% from US\$1.14 billion of net revenues for the second quarter of 2017. The decrease in total net revenues was primarily attributable to higher commissions now reported as a reduction in revenue as a result of our company’s adoption of the New Revenue Standard and lower rolling chip gross gaming revenue in City of Dreams, partially offset by the better performance of Altira Macau in all gaming segments, and increased gross gaming revenues generated from the operation of Studio City Casino by our subsidiary, Melco Resorts Macau, the gaming subconcessionaire. Our company adopted the New Revenue Standard using the modified retrospective method from January 1, 2018. Results for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior year amounts are not adjusted and continue to be reported in accordance with the previous basis. Under the previous basis, before the adoption of the New Revenue Standard, net revenues for the second quarter of 2018 would have been US\$1.16 billion, which would have represented an increase of 2.0% from US\$1.14 billion for the comparable period in 2017. Net income from Studio City Casino gaming operations are reimbursed to Studio City Entertainment pursuant to the Services and Right to Use Arrangements. Such reimbursement is included in general and administrative expenses.

Net income for the second quarter of 2018 was US\$64.7 million, as compared to US\$53.3 million for the second quarter of 2017. The increase in profitability was primarily attributable to better performance in Altira Macau mentioned above and the one-off charge on extinguishment and modification of debt in the second quarter of 2017 relating to the refinancing of the US\$1 billion senior noted issued in 2013, partially offset by higher pre-opening costs for the grand opening of Morpheus in the second quarter of 2018.

The following summarizes the results of our operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2018	2017	2018	2017
	(In thousands of US\$)

Results of Operations

City of Dreams Second Quarter Results

For the quarter ended June 30, 2018, net revenue at City of Dreams was US\$600.5 million compared to US\$650.3 million in the second quarter of 2017. The decrease in net revenue was primarily a result of lower rolling chip gross gaming revenue and higher commissions now reported as a reduction in revenue as a result of the adoption of the New Revenue Standard.

Rolling chip volume totaled US\$10.5 billion for the second quarter of 2018 versus US\$12.2 billion in the second quarter of 2017. The rolling chip win rate was 2.9% for both quarters ended June 30, 2018 and 2017. The expected rolling chip win rate range is 2.7%-3.0%.

Mass market table games drop increased to US\$1,182.4 million in the second quarter of 2018 compared with US\$1,073.2 million in the second quarter of 2017. The mass market table games hold percentage was 28.4% in the second quarter of 2018 compared to 32.4% in the second quarter of 2017.

Gaming machine handle for the second quarter of 2018 was US\$1,116.9 million, compared with US\$937.9 million in the second quarter of 2017. The gaming machine win rate was 5.1% in the second quarter of 2018 versus 4.0% in the second quarter of 2017.

Total non-gaming revenue at City of Dreams in the second quarter of 2018 was US\$97.9 million, compared with US\$80.2 million in the second quarter of 2017.

Altira Macau Second Quarter Results

For the quarter ended June 30, 2018, net revenue at Altira Macau was US\$123.1 million compared to US\$107.7 million in the second quarter of 2017. The increase in net revenue was primarily a result of better performances in all gaming segments, partially offset by higher commissions now reported as a reduction in revenue as a result of the adoption of the New Revenue Standard.

Rolling chip volume totaled US\$4.8 billion in the second quarter of 2018 versus US\$4.0 billion in the second quarter of 2017. The rolling chip win rate was 3.6% in the second quarter of 2018 versus 3.3% in the second quarter of 2017. The expected rolling chip win rate range is 2.7%-3.0%.

In the mass market table games segment, drop totaled US\$131.9 million in the second quarter of 2018, representing an increase from US\$91.9 million generated in the comparable period in 2017. The mass market table games hold percentage was 19.7% in the second quarter of 2018 compared with 15.2% in the second quarter of 2017.

Gaming machine handle for the second quarter of 2018 was US\$30.0 million, compared with US\$7.6 million in the second quarter of 2017. The increase was primarily due to an increase in average number of gaming machines to 129 in the second quarter of 2018, compared to 56 in the second quarter of 2017. The gaming machine win rate was 6.3% in the second quarter of 2018 versus 6.0% in the second quarter of 2017.

Total non-gaming revenue at Altira Macau in the second quarter of 2018 was US\$6.7 million, compared with US\$6.1 million in the second quarter of 2017.

Mocha Clubs Second Quarter Results

Net revenue from Mocha Clubs totaled US\$28.0 million in the second quarter of 2018 as compared to US\$29.3 million in the second quarter of 2017.

Gaming machine handle for the second quarter of 2018 was US\$618.5 million, compared with US\$592.4 million in the second quarter of 2017. The gaming machine win rate was 4.5% in the second quarter of 2018 versus 4.8% in the second quarter of 2017.

Other Factors Affecting Second Quarter Earnings

Total net non-operating expenses for the second quarter of 2018 were US\$14.9 million, which mainly included interest expenses, net of capitalized interest, of US\$9.1 million and a net foreign exchange loss of US\$5.3 million, as compared to a total net non-operating expenses of US\$45.0 million for the second quarter of 2017, which mainly included interest expenses, net of capitalized interest, of US\$10.3 million, loss on extinguishment of debt of US\$31.5 million and costs associated with debt modification of US\$1.9 million.

Depreciation and amortization costs of US\$64.3 million were recorded in the second quarter of 2018, of which US\$14.3 million was related to the amortization of our gaming subconcession and US\$2.7 million was related to the amortization of land use rights.

Six Months' Results

For the six months ended June 30, 2018, our total net revenues were US\$2.26 billion compared to US\$2.27 billion for the six months ended June 30, 2017. The slight decrease in total net revenues was primarily attributable to higher commissions now reported as a reduction in revenue as a result of our company's adoption of the New Revenue Standard and lower rolling chip gross gaming revenue in City of Dreams, partially offset by the better performance of Altira Macau in all gaming segments, and increased gross gaming revenues generated from the operation of Studio City Casino by our subsidiary, Melco Resorts Macau, the gaming subconcessionaire. Under the previous basis, before the adoption of the New Revenue Standard, net revenues for the six months ended June 30, 2018 would have been US\$2.43 billion, which would have represented an increase of 7.2% from US\$2.27 billion for the comparable period in 2017.

Net income for the six months ended June 30, 2018 was US\$220.5 million, compared with net income of US\$183.3 million in the comparable period of 2017. The increase in profitability was primarily attributable to better performance in Altira Macau mentioned above and the one-off charge on extinguishment and modification of debt in the six months ended June 30, 2017 relating to the refinancing of the US\$1 billion senior noted issued in 2013, partially offset by higher pre-opening costs for the grand opening of Morpheus for the six months ended June 30, 2018.

Liquidity and Capital Resources

We have relied and intend to continue to rely on our cash generated from our operations and our debt and equity financings to meet our financing needs and repay our indebtedness, as the case may be. Our company is redeveloping and rebranding The Countdown at City of Dreams in Cotai, Macau. Any other future developments may be subject to further financing and a number of other factors, many of which are beyond our control.

As of June 30, 2018, we held cash and cash equivalents of US\$841.9 million and the HK\$9.75 billion (equivalent to approximately US\$1.25 billion) revolving credit facility under the 2015 Credit Facilities remained available for future drawdown, subject to satisfaction of certain conditions precedent. Further, the 2015 Credit Facilities includes an incremental facility of up to US\$1.3 billion to be made available upon further agreement with any of the existing lenders under the 2015 Credit Facilities or with other entities.

Operating Activities

Operating cash flows are generally affected by changes in operating income and accounts receivable related to VIP table games play and hotel operations conducted on a cash and credit basis and the remainder of the business, including mass market table games play, gaming machine play, food and beverage and entertainment, are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$207.8 million for the second quarter of 2018, compared to US\$258.5 million for the second quarter of 2017. The decrease in net cash provided by operating activities for the second quarter of 2018 was mainly attributable to the lower contribution of cash from operations. Net cash provided by operating activities was US\$349.6 million for the six months ended June 30, 2018, compared to US\$461.8 million for the six months ended June 30, 2017. The decrease in net cash provided by operating activities for the six months ended June 30, 2018 was mainly attributable to increased working capital for operations.

Investing Activities

Net cash used in investing activities was US\$107.6 million for the second quarter of 2018, compared to net cash used in investing activities of US\$102.7 million for the second quarter of 2017. The change was primarily due to increased capital expenditure payments.

Net cash used in investing activities of US\$107.6 million for the second quarter of 2018 mainly included capital expenditure payments of US\$103.4 million.

Net cash used in investing activities of US\$102.7 million for the second quarter of 2017 mainly included capital expenditure payments of US\$100.1 million.

Our total capital expenditure payments for the second quarter of 2018 were US\$103.4 million, as compared to US\$100.1 million for the second quarter of 2017. Such capital expenditures for both periods were mainly associated with our development projects, including Morpheus, as well as enhancements to our integrated resort offerings.

Net cash used in investing activities was US\$203.3 million for the six months ended June 30, 2018, compared to net cash used in investing activities of US\$50.3 million. The change was primarily due to no withdrawals of bank deposits with original maturities over three months in the six months ended June 30, 2018.

Net cash used in investing activities of US\$203.3 million for the six months ended June 30, 2018 mainly included capital expenditure payments of US\$178.9 million and advance payments and deposits for acquisition of property and equipment of US\$19.4 million.

Net cash used in investing activities of US\$50.3 million for the six months ended June 30, 2017 mainly included capital expenditure payments of US\$176.1 million and advance payments and deposits for acquisition of property and equipment of US\$13.5 million, partially offset by withdrawals of bank deposits with original maturities over three months of US\$138.5 million.

Our total capital expenditure payments for the six months ended June 30, 2018 were US\$178.9 million, as compared to US\$176.1 million for the six months ended June 30, 2017. Such capital expenditures for both periods were mainly associated with our development projects, including Morpheus, as well as enhancements to our integrated resort offerings.

Financing Activities

Net cash used in financing activities amounted to US\$101.4 million for the second quarter of 2018, which primarily represented the dividend payment of US\$92.0 million and the scheduled repayment of the term loan under the 2015 Credit Facilities of US\$11.3 million.

EXCHANGE RATE INFORMATION

Although we have certain expenses and revenues denominated in Patacas, our revenues and expenses are denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at the rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2017. Our unaudited condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements for the year ended December 31, 2017, except for the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers (Topic 606)* (“New Revenue Standard”) using the modified retrospective method on January 1, 2018. Amounts for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior period amounts are not adjusted and continue to be reported in accordance with the previous basis. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Results of Operations

Studio City is a large-scale cinematically-themed integrated entertainment, retail and gaming resort which opened in October 2015. During the second quarter of 2018, Studio City Casino had approximately 293 gaming tables and approximately 959 gaming machines operating. The gaming operations of Studio City are focused on the mass market and target all ranges of mass market patrons. While Studio City focuses on the mass market segment for gaming, VIP rolling chip operations, including both junket and premium direct VIP offerings, were introduced at Studio City in early November 2016 and a VIP rolling chip area has been built at Studio City with 45 VIP tables as of June 30, 2018. Studio City will assess and evaluate its focus on different market segments from time to time and will adjust its operations as appropriate. Studio City also includes luxury hotel offerings and various entertainment, retail and food and beverage outlets to attract a diverse range of customers. Designed to focus on the mass market segment, Studio City offers cinematically-themed, unique and innovative interactive attractions, including the world’s first figure-8 and Asia’s highest Ferris wheel, a Warner Bros.-themed family entertainment center, a Batman film franchise digital ride, a 5,000 seat multi-purpose live performance arena and a nightclub, as well as approximately 1,600 hotel rooms, various food and beverage outlets and approximately 35,000 square meters (equivalent to approximately 377,000 square feet) of themed and innovative retail space.

Studio City Casino is operated by the Gaming Operator, one of the subsidiaries of Melco and holder of a gaming subconcession, and we operate the non-gaming businesses of Studio City.

Studio City sits within a ring-fenced credit group separate from its shareholders and Studio City’s debt obligations are not guaranteed by its shareholders. In particular, Melco is not a guarantor under the 2021 Studio City Senior Secured Credit Facility, the Studio City Finance Notes or the Studio City Company Notes. As such, SCI and its shareholders are not contractually required to provide any additional financial support to Studio City with respect to the Studio City debt obligations.

The plan for the additional development on the remaining land on which Studio City is located remains at an early stage and is subject to various conditions. The remaining project may include a hotel and related amenities. We expect to have significant capital expenditures in the future if we continue to expand our existing operations at Studio City and develop the remaining project.

In February 2018, we announced that the Macau government granted an extension of the development period under the Studio City land concession contract. Pursuant to such extension, the development period for the land of Studio City has been extended to July 24, 2021. If we fail to fully develop our remaining project under the land concession contract by July 24, 2021, or receive a further extension of the development period from the Macau government, we may be forced to forfeit all or part of our investment in the granted land, along with our interest in Studio City.

The Adjusted EBITDA for Studio City as mentioned in Melco's unaudited second quarter 2018 earnings release dated July 24, 2018 does not reflect the intra-Melco group fees for the Master Services Agreements charged to Studio City Finance Limited and its subsidiaries and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. The consolidated financials of Studio City Finance Limited contained in this report reflect such intra-Melco group fees charged and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. In addition, the Adjusted EBITDA for Studio City mentioned above includes operating income or losses generated at Studio City by SCI's subsidiaries which are not subsidiaries of Studio City Finance Limited. Such operating income or losses are not included in the consolidated financials of Studio City Finance Limited. The total variance resulting from the above differences for the second quarter of 2018 is approximately US\$11 million.

Three Months Ended June 30, 2018 Compared to Three Months Ended June 30, 2017

For the second quarter of 2018, our total revenues were US\$125.0 million, a decrease of US\$6.7 million, from US\$131.7 million of total revenues for the second quarter of 2017. The decrease in total revenues was primarily due to the decrease in revenues from the provision of gaming related services and lower non-gaming revenue. The Company adopted the New Revenue Standard using the modified retrospective method from January 1, 2018. Results for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior year amounts are not adjusted and continue to be reported in accordance with the previous basis. There was no material impact on our total revenues for the three months ended June 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Finance Limited for the second quarter of 2018 was US\$21.8 million, an increase of US\$3.4 million from a net loss attributable to Studio City Finance Limited of US\$18.4 million for the second quarter of 2017, primarily due to decreased revenues from the provision of gaming related services and non-gaming revenue mentioned above.

Studio City generated gross gaming revenues of US\$381.0 million and US\$350.7 million for the second quarters of 2018 and 2017, respectively. Rolling chip volume totaled US\$6.1 billion for the second quarter of 2018 versus US\$4.7 billion in the second quarter of 2017. The rolling chip win rate was 2.7% in the second quarter of 2018 versus 3.3% in the second quarter of 2017. The expected rolling chip win rate range is 2.7% - 3.0%. Mass market table games drop increased to US\$814.3 million in the second quarter of 2018 compared with US\$661.4 million in the second quarter of 2017. The mass market table games hold percentage was 24.5% in the second quarter of 2018 compared to 26.8% in the second quarter of 2017. Gaming machine handle for the second quarter of 2018 was US\$614.9 million, compared with US\$502.9 million in the second quarter of 2017. The gaming machine win rate was 3.4% in the second quarter of 2018 compared to 3.7% in the second quarter of 2017. After Melco Resorts Macau deducted gaming tax and the costs incurred in connection with its operation of Studio City Casino pursuant to the Services and Right to Use Arrangements from the gross gaming revenues, US\$70.2 million and US\$74.1 million were recognized as revenues from provision of gaming related services for the second quarters of 2018 and 2017, respectively.

Total non-gaming revenue at Studio City for the second quarter of 2018 was US\$54.8 million, compared with US\$57.5 million for the second quarter of 2017.

Total net non-operating expenses for the second quarter of 2018 were US\$39.8 million, which mainly included interest expenses of US\$40.1 million, as compared to total net non-operating expenses of US\$39.2 million for the second quarter of 2017, which mainly included interest expenses of US\$40.0 million.

Depreciation and amortization costs of US\$42.7 million were recorded in the second quarter of 2018, of which US\$0.8 million was related to the amortization of land use right.

Six Months Ended June 30, 2018 Compared to Six Months Ended June 30, 2017

For the six months ended June 30, 2018, our total revenues were US\$281.8 million, an increase of US\$29.4 million, from US\$252.4 million of total revenues for the six months ended June 30, 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services as a result of better performance in all gaming segments at Studio City Casino. There was no material impact on our total revenues for the six months ended June 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Finance Limited for the six months ended June 30, 2018 was US\$9.2 million, a decrease of US\$33.9 million from a net loss attributable to Studio City Finance Limited of US\$43.2 million for the six months ended June 30, 2017, primarily due to the increased revenues from provision of gaming related services mentioned above.

Liquidity and Capital Resources

Up through the opening of Studio City, our principal sources of liquidity included shareholder equity contributions, loan facilities and senior notes facilities to meet our project development needs. Following the opening of Studio City in October 2015, we relied on, and intend to continue to rely on, our cash generated from our operations and our debt and equity financings. On August 14, 2017, SCI announced it submitted on a confidential basis to the U.S. Securities and Exchange Commission a draft registration statement for a possible initial public offering of American depositary shares representing ordinary shares of SCI. On August 20, 2018, SCI announced it has been continuing its preparations for a possible initial public offering.

As of June 30, 2018, we held cash and cash equivalents of US\$290.4 million, bank deposits with original maturities over three months of US\$25.0 million and restricted cash of US\$12.8 million. Restricted cash represented certain bank account balances required to be maintained in accordance with the terms of the respective agreements of the Studio City Finance Notes, the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility. The revolving credit facility under the 2021 Studio City Senior Secured Credit Facility remains available for future drawdown, subject to satisfaction of certain conditions precedent.

Cash Flows

The following table sets forth a summary of our cash flows for the periods indicated. The consolidated cash flows data for the three and six months ended June 30, 2017 have been adjusted to reflect the retrospective adoption on January 1, 2018 of Accounting Standards Update 2016-18 *Statement of Cash Flows (Topic 230): Restricted Cash (A Consensus of the FASB Emerging Issues Task Force)*. As a result of the adoption, restricted cash is included with cash and cash equivalents in the beginning and ending balances, and the changes in restricted cash that were previously reported within net cash used in investing activities in the consolidated statements of cash flows have been eliminated.

Operating Activities

Operating cash flows are generally affected by changes in operating income and certain operating assets and liabilities, including receivables related to the provision of gaming related services and hotel operations, as well as the non-gaming businesses, including food and beverage, entertainment, mall, retail and other, which are conducted primarily on a cash basis.

Net cash used in operating activities was US\$4.0 million for the three months ended June 30, 2018, as compared to net cash used in operating activities of US\$7.7 million for the three months ended June 30, 2017. The decrease in net cash used in operating activities was mainly attributable to decreased working capital for operations.

Net cash provided by operating activities was US\$76.0 million for the six months ended June 30, 2018, as compared to net cash provided by operating activities of US\$22.5 million for the six months ended June 30, 2017. The increase in net cash provided by operating activities was primarily due to the higher contribution of cash generated from the improving operations of Studio City as described in the foregoing sections.

Investing Activities

Net cash used in investing activities was US\$32.5 million for the three months ended June 30, 2018 as compared to net cash used in investing activities of US\$20.7 million for the three months ended June 30, 2017. The change was primarily due to the placement of a bank deposit with original maturity over three months, partially offset by decrease in capital expenditure payments. Net cash used in investing activities for the three months ended June 30, 2018 mainly included the placement of a bank deposit with original maturity over three months of US\$20.0 million, capital expenditure payments of US\$10.8 million and funds to an affiliated company of US\$1.9 million.

Net cash used in investing activities for the three months ended June 30, 2017 mainly included capital expenditure payments of US\$19.8 million.

Net cash used in investing activities was US\$131.9 million for the six months ended June 30, 2018 as compared to net cash used in investing activities of US\$29.8 million for the six months ended June 30, 2017. The change was primarily due to the increase in capital expenditure payments and the net placement of bank deposits with original maturities over three months. Net cash used in investing activities for the six months ended June 30, 2018 mainly included capital expenditure payments of US\$108.1 million, net placement of bank deposits with original maturities over three months of US\$20.1 million and funds to an affiliated company of US\$4.9 million.

Net cash used in investing activities for the six months ended June 30, 2017 mainly included capital expenditure payments of US\$28.6 million.

Financing Activities

There was no cash used in or provided by any financing activity for the three and six months ended June 30, 2018.

Cash used in a financing activity was US\$70,000 for the three months ended June 30, 2017 and US\$1.3 million for the six months ended June 30, 2017, due to the payment of debt issuance costs associated with the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility.

Indebtedness and Capital Contributions

The following table presents a summary of our gross indebtedness, before the reduction of debt issuance costs, as of June 30, 2018:

Studio City Company Notes	\$ 1,200,000
Studio City Finance Notes	825,000

	<u>\$ 2,025,129</u>

EXCHANGE RATE INFORMATION

Although we have certain expenses and revenues denominated in Patacas, our revenues and expenses are denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at the rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on June 29, 2018 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.8463 to US\$1.00. On August 24, 2018, the noon buying rate was HK\$7.8496 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 to MOP1.03. All translations from Pataca to U.S. dollar in this quarterly report were made at the exchange rate of MOP8.0134 to US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2017. Our unaudited condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements for the year ended December 31, 2017, except for the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers (Topic 606)* (“New Revenue Standard”) using the modified retrospective method on January 1, 2018. Amounts for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior period amounts are not adjusted and continue to be reported in accordance with the previous basis. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Results of Operations

Studio City is a large-scale cinematically-themed integrated entertainment, retail and gaming resort which opened in October 2015. During the second quarter of 2018, Studio City Casino had approximately 293 gaming tables and approximately 959 gaming machines operating. The gaming operations of Studio City are focused on the mass market and target all ranges of mass market patrons. While Studio City focuses on the mass market segment for gaming, VIP rolling chip operations, including both junket and premium direct VIP offerings, were introduced at Studio City in early November 2016 and a VIP rolling chip area has been built at Studio City with 45 VIP tables as of June 30, 2018. Studio City will assess and evaluate its focus on different market segments from time to time and will adjust its operations as appropriate. Studio City also includes luxury hotel offerings and various entertainment, retail and food and beverage outlets to attract a diverse range of customers. Designed to focus on the mass market segment, Studio City offers cinematically-themed, unique and innovative interactive attractions, including the world’s first figure-8 and Asia’s highest Ferris wheel, a Warner Bros.-themed family entertainment center, a Batman film franchise digital ride, a 5,000 seat multi-purpose live performance arena and a nightclub, as well as approximately 1,600 hotel rooms, various food and beverage outlets and approximately 35,000 square meters (equivalent to approximately 377,000 square feet) of themed and innovative retail space.

Studio City Casino is operated by the Gaming Operator, one of the subsidiaries of Melco and holder of a gaming subconcession, and we operate the non-gaming businesses of Studio City.

Studio City sits within a ring-fenced credit group separate from its shareholders and Studio City’s debt obligations are not guaranteed by its shareholders. In particular, Melco is not a guarantor under the 2021 Studio City Senior Secured Credit Facility, the Studio City Finance Notes or the Studio City Company Notes. As such, SCI and its shareholders are not contractually required to provide any additional financial support to Studio City with respect to the Studio City debt obligations.

The plan for the additional development on the remaining land on which Studio City is located remains at an early stage and is subject to various conditions. The remaining project may include a hotel and related amenities. We expect to have significant capital expenditures in the future if we continue to expand our existing operations at Studio City and develop the remaining project.

In February 2018, we announced that the Macau government granted an extension of the development period under the Studio City land concession contract. Pursuant to such extension, the development period for the land of Studio City has been extended to July 24, 2021. If we fail to fully develop our remaining project under the land concession contract by July 24, 2021, or receive a further extension of the development period from the Macau government, we may be forced to forfeit all or part of our investment in the granted land, along with our interest in Studio City.

The Adjusted EBITDA for Studio City as mentioned in Melco's unaudited second quarter 2018 earnings release dated July 24, 2018 does not reflect the intra-Melco group fees for the Master Services Agreements charged to Studio City Investments Limited and its subsidiaries and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. The consolidated financials of Studio City Investments Limited contained in this report reflect such intra-Melco group fees charged and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. In addition, the Adjusted EBITDA for Studio City mentioned above includes operating income or losses generated at Studio City by SCI's subsidiaries which are not subsidiaries of Studio City Investments Limited. Such operating income or losses are not included in the consolidated financials of Studio City Investments Limited. The total variance resulting from the above differences for the second quarter of 2018 is approximately US\$11 million.

Three Months Ended June 30, 2018 Compared to Three Months Ended June 30, 2017

For the second quarter of 2018, our total revenues were US\$125.0 million, a decrease of US\$6.7 million, from US\$131.7 million of total revenues for the second quarter of 2017. The decrease in total revenues was primarily due to the decrease in revenues from the provision of gaming related services and lower non-gaming revenue. The Company adopted the New Revenue Standard using the modified retrospective method from January 1, 2018. Results for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior year amounts are not adjusted and continue to be reported in accordance with the previous basis. There was no material impact on our total revenues for the three months ended June 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the second quarter of 2018 was US\$30.1 million, an increase of US\$5.0 million from a net loss attributable to Studio City Investments Limited of US\$25.2 million for the second quarter of 2017, primarily due to decreased revenues from the provision of gaming related services and non-gaming revenue mentioned above.

Studio City generated gross gaming revenues of US\$381.0 million and US\$350.7 million for the second quarters of 2018 and 2017, respectively. Rolling chip volume totaled US\$6.1 billion for the second quarter of 2018 versus US\$4.7 billion in the second quarter of 2017. The rolling chip win rate was 2.7% in the second quarter of 2018 versus 3.3% in the second quarter of 2017. The expected rolling chip win rate range is 2.7% - 3.0%. Mass market table games drop increased to US\$814.3 million in the second quarter of 2018 compared with US\$661.4 million in the second quarter of 2017. The mass market table games hold percentage was 24.5% in the second quarter of 2018 compared to 26.8% in the second quarter of 2017. Gaming machine handle for the second quarter of 2018 was US\$614.9 million, compared with US\$502.9 million in the second quarter of 2017. The gaming machine win rate was 3.4% in the second quarter of 2018 compared to 3.7% in the second quarter of 2017. After Melco Resorts Macau deducted gaming tax and the costs incurred in connection with its operation of Studio City Casino pursuant to the Services and Right to Use Arrangements from the gross gaming revenues, US\$70.2 million and US\$74.1 million were recognized as revenues from provision of gaming related services for the second quarters of 2018 and 2017, respectively.

Total non-gaming revenue at Studio City for the second quarter of 2018 was US\$54.8 million, compared with US\$57.5 million for the second quarter of 2017.

Total net non-operating expenses for the second quarter of 2018 were US\$49.4 million, which mainly included interest expenses of US\$49.7 million, as compared to total net non-operating expenses of US\$47.4 million for the second quarter of 2017, which mainly included interest expenses of US\$48.1 million.

Depreciation and amortization costs of US\$41.4 million were recorded in the second quarter of 2018, of which US\$0.8 million was related to the amortization of land use right.

Six Months Ended June 30, 2018 Compared to Six Months Ended June 30, 2017

For the six months ended June 30, 2018, our total revenues were US\$281.8 million, an increase of US\$29.4 million, from US\$252.4 million of total revenues for the six months ended June 30, 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services as a result of better performance in all gaming segments at Studio City Casino. There was no material impact on our total revenues for the six months ended June 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the six months ended June 30, 2018 was US\$25.5 million, a decrease of US\$30.9 million from a net loss attributable to Studio City Investments Limited of US\$56.4 million for the six months ended June 30, 2017, primarily due to the increased revenues from provision of gaming related services mentioned above.

Liquidity and Capital Resources

Up through the opening of Studio City, our principal sources of liquidity included shareholder equity contributions, loan facilities and senior notes facilities to meet our project development needs. Following the opening of Studio City in October 2015, we relied on, and intend to continue to rely on, our cash generated from our operations and our debt and equity financings. On August 14, 2017, SCI announced it submitted on a confidential basis to the U.S. Securities and Exchange Commission a draft registration statement for a possible initial public offering of American depositary shares representing ordinary shares of SCI. On August 20, 2018, SCI announced it has been continuing its preparations for a possible initial public offering.

As of June 30, 2018, we held cash and cash equivalents of US\$290.4 million, bank deposits with original maturities over three months of US\$25.0 million and restricted cash of US\$7.0 million. Restricted cash represented certain bank account balances required to be maintained in accordance with the terms of the respective agreements of the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility. The revolving credit facility under the 2021 Studio City Senior Secured Credit Facility remains available for future drawdown, subject to satisfaction of certain conditions precedent.

Cash Flows

The following table sets forth a summary of our cash flows for the periods indicated. The consolidated cash flows data for the three and six months ended June 30, 2017 have been adjusted to reflect the retrospective adoption on January 1, 2018 of Accounting Standards Update 2016-18 *Statement of Cash Flows (Topic 230): Restricted Cash (A Consensus of the FASB Emerging Issues Task Force)*. As a result of the adoption, restricted cash is included with cash and cash equivalents in the beginning and ending balances, and the changes in restricted cash that were previously reported within net cash used in investing activities in the consolidated statements of cash flows have been eliminated.

Operating Activities

Operating cash flows are generally affected by changes in operating income and certain operating assets and liabilities, including receivables related to the provision of gaming related services and hotel operations, as well as the non-gaming businesses, including food and beverage, entertainment, mall, retail and other, which are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$13.5 million for the three months ended June 30, 2018, as compared to net cash provided by operating activities of US\$9.9 million for the three months ended June 30, 2017. The increase in net cash provided by operating activities was mainly attributable to decreased working capital for operations.

Net cash provided by operating activities was US\$76.0 million for the six months ended June 30, 2018, as compared to net cash provided by operating activities of US\$22.6 million for the six months ended June 30, 2017. The increase in net cash provided by operating activities was primarily due to the higher contribution of cash generated from the improving operations of Studio City as described in the foregoing sections.

Investing Activities

Net cash used in investing activities was US\$32.5 million for the three months ended June 30, 2018 as compared to net cash used in investing activities of US\$20.7 million for the three months ended June 30, 2017. The change was primarily due to the placement of a bank deposit with original maturity over three months, partially offset by decrease in capital expenditure payments. Net cash used in investing activities for the three months ended June 30, 2018 mainly included the placement of a bank deposit with original maturity over three months of US\$20.0 million, capital expenditure payments of US\$10.8 million and funds to an affiliated company of US\$1.9 million.

EXCHANGE RATE INFORMATION

Although we have certain expenses and revenues denominated in Patacas, our revenues and expenses are denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, in U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at the rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on June 29, 2018 in New York City for cable transfers in H.K. dollars for U.S. dollars, provided in the H.10 weekly statistical release of the Federal Reserve Board of the United States as certified for customs purposes by the Federal Reserve Bank of New York, was HK\$7.8463 to US\$1.00. On August 24, 2018, the noon buying rate was HK\$7.8496 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 to MOP1.03. All translations from Pataca to U.S. dollar in this quarterly report were made at the exchange rate of MOP8.0134 to US\$1.00. The Federal Reserve Bank of New York does not certify for customs purposes a noon buying rate for cable transfers in Pataca.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2017. Our unaudited condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements for the year ended December 31, 2017, except for the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers (Topic 606)* (“New Revenue Standard”) using the modified retrospective method on January 1, 2018. Amounts for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior period amounts are not adjusted and continue to be reported in accordance with the previous basis. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Results of Operations

Studio City is a large-scale cinematically-themed integrated entertainment, retail and gaming resort which opened in October 2015. During the second quarter of 2018, Studio City Casino had approximately 293 gaming tables and approximately 959 gaming machines operating. The gaming operations of Studio City are focused on the mass market and target all ranges of mass market patrons. While Studio City focuses on the mass market segment for gaming, VIP rolling chip operations, including both junket and premium direct VIP offerings, were introduced at Studio City in early November 2016 and a VIP rolling chip area has been built at Studio City with 45 VIP tables as of June 30, 2018. Studio City will assess and evaluate its focus on different market segments from time to time and will adjust its operations as appropriate. Studio City also includes luxury hotel offerings and various entertainment, retail and food and beverage outlets to attract a diverse range of customers. Designed to focus on the mass market segment, Studio City offers cinematically-themed, unique and innovative interactive attractions, including the world’s first figure-8 and Asia’s highest Ferris wheel, a Warner Bros.-themed family entertainment center, a Batman film franchise digital ride, a 5,000 seat multi-purpose live performance arena and a nightclub, as well as approximately 1,600 hotel rooms, various food and beverage outlets and approximately 35,000 square meters (equivalent to approximately 377,000 square feet) of themed and innovative retail space.

Studio City Casino is operated by the Gaming Operator, one of the subsidiaries of Melco and holder of a gaming subconcession, and we operate the non-gaming businesses of Studio City.

Studio City sits within a ring-fenced credit group separate from its shareholders and Studio City’s debt obligations are not guaranteed by its shareholders. In particular, Melco is not a guarantor under the 2021 Studio City Senior Secured Credit Facility, the Studio City Finance Notes or the Studio City Company Notes. As such, SCI and its shareholders are not contractually required to provide any additional financial support to Studio City with respect to the Studio City debt obligations.

The plan for the additional development on the remaining land on which Studio City is located remains at an early stage and is subject to various conditions. The remaining project may include a hotel and related amenities. We expect to have significant capital expenditures in the future if we continue to expand our existing operations at Studio City and develop the remaining project.

In February 2018, we announced that the Macau government granted an extension of the development period under the Studio City land concession contract. Pursuant to such extension, the development period for the land of Studio City has been extended to July 24, 2021. If we fail to fully develop our remaining project under the land concession contract by July 24, 2021, or receive a further extension of the development period from the Macau government, we may be forced to forfeit all or part of our investment in the granted land, along with our interest in Studio City.

The Adjusted EBITDA for Studio City as mentioned in Melco's unaudited second quarter 2018 earnings release dated July 24, 2018 does not reflect the intra-Melco group fees for the Master Services Agreements charged to Studio City Investments Limited and its subsidiaries and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. The consolidated financials of Studio City Investments Limited contained in this report reflect such intra-Melco group fees charged and the costs related to VIP rolling chip operations at Studio City Casino under the Services and Right to Use Arrangements. In addition, the Adjusted EBITDA for Studio City mentioned above includes operating income or losses generated at Studio City by SCI's subsidiaries which are not subsidiaries of Studio City Investments Limited. Such operating income or losses are not included in the consolidated financials of Studio City Investments Limited. The total variance resulting from the above differences for the second quarter of 2018 is approximately US\$11 million.

Three Months Ended June 30, 2018 Compared to Three Months Ended June 30, 2017

For the second quarter of 2018, our total revenues were US\$125.0 million, a decrease of US\$6.7 million, from US\$131.7 million of total revenues for the second quarter of 2017. The decrease in total revenues was primarily due to the decrease in revenues from the provision of gaming related services and lower non-gaming revenue. The Company adopted the New Revenue Standard using the modified retrospective method from January 1, 2018. Results for the periods beginning on or after January 1, 2018 are presented under the New Revenue Standard, while prior year amounts are not adjusted and continue to be reported in accordance with the previous basis. There was no material impact on our total revenues for the three months ended June 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the second quarter of 2018 was US\$30.1 million, an increase of US\$5.0 million from a net loss attributable to Studio City Investments Limited of US\$25.2 million for the second quarter of 2017, primarily due to decreased revenues from the provision of gaming related services and non-gaming revenue mentioned above.

Studio City generated gross gaming revenues of US\$381.0 million and US\$350.7 million for the second quarters of 2018 and 2017, respectively. Rolling chip volume totaled US\$6.1 billion for the second quarter of 2018 versus US\$4.7 billion in the second quarter of 2017. The rolling chip win rate was 2.7% in the second quarter of 2018 versus 3.3% in the second quarter of 2017. The expected rolling chip win rate range is 2.7% - 3.0%. Mass market table games drop increased to US\$814.3 million in the second quarter of 2018 compared with US\$661.4 million in the second quarter of 2017. The mass market table games hold percentage was 24.5% in the second quarter of 2018 compared to 26.8% in the second quarter of 2017. Gaming machine handle for the second quarter of 2018 was US\$614.9 million, compared with US\$502.9 million in the second quarter of 2017. The gaming machine win rate was 3.4% in the second quarter of 2018 compared to 3.7% in the second quarter of 2017. After Melco Resorts Macau deducted gaming tax and the costs incurred in connection with its operation of Studio City Casino pursuant to the Services and Right to Use Arrangements from the gross gaming revenues, US\$70.2 million and US\$74.1 million were recognized as revenues from provision of gaming related services for the second quarters of 2018 and 2017, respectively.

Total non-gaming revenue at Studio City for the second quarter of 2018 was US\$54.8 million, compared with US\$57.5 million for the second quarter of 2017.

Total net non-operating expenses for the second quarter of 2018 were US\$49.4 million, which mainly included interest expenses of US\$49.7 million, as compared to total net non-operating expenses of US\$47.4 million for the second quarter of 2017, which mainly included interest expenses of US\$48.1 million.

Depreciation and amortization costs of US\$41.4 million were recorded in the second quarter of 2018, of which US\$0.8 million was related to the amortization of land use right.

Six Months Ended June 30, 2018 Compared to Six Months Ended June 30, 2017

For the six months ended June 30, 2018, our total revenues were US\$281.8 million, an increase of US\$29.4 million, from US\$252.4 million of total revenues for the six months ended June 30, 2017. The increase in total revenues was primarily due to the increase in revenues from the provision of gaming related services as a result of better performance in all gaming segments at Studio City Casino. There was no material impact on our total revenues for the six months ended June 30, 2018 as a result of the adoption of the New Revenue Standard from January 1, 2018.

Net loss attributable to Studio City Investments Limited for the six months ended June 30, 2018 was US\$25.5 million, a decrease of US\$30.9 million from a net loss attributable to Studio City Investments Limited of US\$56.4 million for the six months ended June 30, 2017, primarily due to the increased revenues from provision of gaming related services mentioned above.

Liquidity and Capital Resources

Up through the opening of Studio City, our principal sources of liquidity included shareholder equity contributions, loan facilities and senior notes facilities to meet our project development needs. Following the opening of Studio City in October 2015, we relied on, and intend to continue to rely on, our cash generated from our operations and our debt and equity financings. On August 14, 2017, SCI announced it submitted on a confidential basis to the U.S. Securities and Exchange Commission a draft registration statement for a possible initial public offering of American depositary shares representing ordinary shares of SCI. On August 20, 2018, SCI announced it has been continuing its preparations for a possible initial public offering.

As of June 30, 2018, we held cash and cash equivalents of US\$290.4 million, bank deposits with original maturities over three months of US\$25.0 million and restricted cash of US\$7.0 million. Restricted cash represented certain bank account balances required to be maintained in accordance with the terms of the respective agreements of the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility. The revolving credit facility under the 2021 Studio City Senior Secured Credit Facility remains available for future drawdown, subject to satisfaction of certain conditions precedent.

Cash Flows

The following table sets forth a summary of our cash flows for the periods indicated. The consolidated cash flows data for the three and six months ended June 30, 2017 have been adjusted to reflect the retrospective adoption on January 1, 2018 of Accounting Standards Update 2016-18 *Statement of Cash Flows (Topic 230): Restricted Cash (A Consensus of the FASB Emerging Issues Task Force)*. As a result of the adoption, restricted cash is included with cash and cash equivalents in the beginning and ending balances, and the changes in restricted cash that were previously reported within net cash used in investing activities in the consolidated statements of cash flows have been eliminated.

Operating Activities

Operating cash flows are generally affected by changes in operating income and certain operating assets and liabilities, including receivables related to the provision of gaming related services and hotel operations, as well as the non-gaming businesses, including food and beverage, entertainment, mall, retail and other, which are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$13.5 million for the three months ended June 30, 2018, as compared to net cash provided by operating activities of US\$9.9 million for the three months ended June 30, 2017. The increase in net cash provided by operating activities was mainly attributable to decreased working capital for operations.

Net cash provided by operating activities was US\$76.0 million for the six months ended June 30, 2018, as compared to net cash provided by operating activities of US\$22.6 million for the six months ended June 30, 2017. The increase in net cash provided by operating activities was primarily due to the higher contribution of cash generated from the improving operations of Studio City as described in the foregoing sections.

Investing Activities

Net cash used in investing activities was US\$32.5 million for the three months ended June 30, 2018 as compared to net cash used in investing activities of US\$20.7 million for the three months ended June 30, 2017. The change was primarily due to the placement of a bank deposit with original maturity over three months, partially offset by decrease in capital expenditure payments. Net cash used in investing activities for the three months ended June 30, 2018 mainly included the placement of a bank deposit with original maturity over three months of US\$20.0 million, capital expenditure payments of US\$10.8 million and funds to an affiliated company of US\$1.9 million.

Net cash used in investing activities for the three months ended June 30, 2017 mainly included capital expenditure payments of US\$19.8 million.

Net cash used in investing activities was US\$131.9 million for the six months ended June 30, 2018 as compared to net cash used in investing activities of US\$29.9 million for the six months ended June 30, 2017. The change was primarily due to the increase in capital expenditure payments and the net placement of bank deposits with original maturities over three months. Net cash used in investing activities for the six months ended June 30, 2018 mainly included capital expenditure payments of US\$108.1 million, net placement of bank deposits with original maturities over three months of US\$20.1 million and funds to an affiliated company of US\$4.9 million.

Net cash used in investing activities for the six months ended June 30, 2017 mainly included capital expenditure payments of US\$28.6 million.

Financing Activities

There was no cash used in or provided by any financing activity for the three and six months ended June 30, 2018.

Cash used in a financing activity was US\$70,000 for the three months ended June 30, 2017 and US\$1.3 million for the six months ended June 30, 2017, due to the payment of debt issuance costs associated with the Studio City Company Notes and the 2021 Studio City Senior Secured Credit Facility.

The following table presents a summary of our gross indebtedness, before the reduction of debt issuance costs, as of June 30, 2018:
