SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements that relate to future events, including our future operating results and conditions, our prospects and our future financial performance and condition, all of which are largely based on our current expectations and projections. Known and unknown risks, uncertainties and other factors may cause our actual results, performance or achievements to be materially different from any future results, performances or achievements expressed or implied by the forward-looking statements. Moreover, because we operate in a heavily regulated and evolving industry, we may become highly leveraged. We also operate in Macau, a market with intense competition, and therefore new risk factors may emerge from time to time. It is not possible for our management to predict all risk factors, nor can we assess the impact of these factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those expressed or implied in any forward-looking statement. Forward-looking statements involve inherent risks and uncertainties, and a number of factors could cause actual results to differ materially from those contained in any forward-looking statement. These factors include, but are not limited to, (i) growth of the gaming market and visitation in Macau, (ii) capital and credit market volatility, (iii) local and global economic conditions, (iv) our anticipated growth strategies, (v) gaming authority and other governmental approvals and regulations, and (vi) our future business development, results of operations and financial condition. In some cases, forward-looking statements can be identified by words or phrases such as "may", "will", "expect", "anticipate", "target", "aim", "estimate", "intend", "plan", "believe", "potential", "continue", "is/are likely to" or other similar expressions.

The forward-looking statements made in this quarterly report relate only to events or information as of the date on which the statements are made in this quarterly report. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. EXCHANGE RATE INFORMATION

Although we will have certain expenses and revenues denominated in Patacas, our revenues and expenses will be denominated predominantly in H.K. dollars and, in connection with a portion of our indebtedness and certain expenses, U.S. dollars. Unless otherwise noted, all translations from H.K. dollars to U.S. dollars and from U.S. dollars to H.K. dollars in this quarterly report were made at a rate of HK\$7.78 to US\$1.00.

The H.K. dollar is freely convertible into other currencies (including the U.S. dollar). Since October 17, 1983, the H.K. dollar has been officially linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong government has stated its intention to maintain the link at that rate, and it, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. However, no assurance can be given that the Hong Kong government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar or at all.

The noon buying rate on June 30, 2015 in New York City for cable transfers in H.K. dollar per U.S. dollar, as certified for customs purposes by the H.10 weekly statistical release of the Federal Reserve Board of the United States, or the Federal Reserve Board, was HK\$7.7513 to US\$1.00. On August 14, 2015, the noon buying rate was HK\$7.7554 to US\$1.00. We make no representation that any H.K. dollar or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or H.K. dollars, as the case may be, at any particular rate or at all.

The Pataca is pegged to the H.K. dollar at a rate of HK\$1.00 = MOP1.03. All translations from Patacas to U.S. dollars in this quarterly report were made at the exchange rate of MOP8.0134 = US\$1.00. The Federal Reserve Board does not certify for customs purposes a noon buying rate for cable transfers in Patacas.

FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in connection with our unaudited condensed consolidated financial statements included elsewhere in this quarterly report. Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The accompanying unaudited condensed consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2014. The historical results are not necessarily indicative of the results of operations to be expected in the future. Certain statements in this “Financial Condition and Results of Operations” are forward-looking statements.

Summary of Financial Results

Results of Operations

City of Dreams Second Quarter Results

For the second quarter of 2015, net revenue at City of Dreams was US\$658.7 million compared to US\$969.2 million in the second quarter of 2014. The decline in net revenue was primarily a result of lower rolling chip revenues and mass market table games revenues.

Rolling chip volume totaled US\$11.1 billion for the second quarter of 2015 versus US\$22.1 billion in the second quarter of 2014. The rolling chip win rate was 2.7% in both quarters ended June 30, 2015 and 2014. The expected rolling chip win rate range is 2.7%–3.0%.

Mass market table games drop decreased to US\$1,198.8 million compared with US\$1,330.8 million in the second quarter of 2014. The mass market table games hold percentage was 32.4% in the second quarter of 2015 compared to 37.4% in the second quarter of 2014.

Gaming machine handle for the second quarter of 2015 was US\$1,116.7 million, compared with US\$1,511.4 million in the second quarter of 2014.

Total non-gaming revenue at City of Dreams in the second quarter of 2015 was US\$68.1 million, compared with US\$68.6 million in the second quarter of 2014.

Altira Macau Second Quarter Results

For the second quarter of 2015, net revenue at Altira Macau was US\$144.1 million compared to US\$181.7 million in the second quarter of 2014. The year-over-year decrease in net revenue was primarily a result of lower rolling chip revenues.

Rolling chip volume totaled US\$6.5 billion in the second quarter of 2015 versus US\$8.3 billion in the second quarter of 2014. The rolling chip win rate was 2.7% in both quarters ended June 30, 2015 and 2014. The expected rolling chip win rate range is 2.7%–3.0%.

In the mass market table games segment, drop totaled US\$166.7 million in the second quarter of 2015, a decrease from US\$196.8 million generated in the comparable period in 2014. The mass market table games hold percentage was 15.9% in both quarters ended June 30, 2015 and 2014.

Gaming machine handle for the second quarter of 2015 was US\$7.7 million.

Total non-gaming revenue at Altira Macau in the second quarter of 2015 was US\$8.4 million compared with US\$9.2 million in the second quarter of 2014.

Mocha Clubs Second Quarter Results

Net revenue from Mocha Clubs totaled US\$33.2 million in the second quarter of 2015 as compared to US\$36.5 million in the second quarter of 2014.

The number of gaming machines in operation at Mocha Clubs averaged approximately 1,200 in both quarters ended June 30, 2015 and 2014. The net win per gaming machine per day was US\$299 in the second quarter of 2015, as compared with US\$331 in the comparable period in 2014.

Other Factors Affecting Second Quarter Earnings

Total net non-operating expenses for the second quarter of 2015 were US\$6.1 million, which mainly included interest income of US\$1.6 million, other income, net, of US\$5.9 million, interest expenses, net of capitalized interest, of US\$9.9 million and other finance costs of US\$4.3 million, as compared to a total net non-operating expenses of US\$14.7 million for the second quarter of 2014, which mainly included interest income of US\$1.8 million, interest expenses, net of capitalized interest, of US\$14.2 million and other finance costs of US\$4.6 million. The year-on-year decrease of US\$8.6 million in net non-operating expenses was primarily due to higher capitalized interest in the current quarter, lower interest charge as a result of the scheduled repayments of the term loan under the 2011 Credit Facilities and increase in other income.

Depreciation and amortization costs of US\$76.9 million were recorded in the second quarter of 2015, of which US\$14.3 million was related to the amortization of our gaming subconcession and US\$5.2 million was related to the amortization of land use rights.

Six Months' Results

For the six months ended June 30, 2015, our total net revenue was US\$1.89 billion compared to US\$2.58 billion for the six months ended June 30, 2014. The year-over-year decrease in net revenue was primarily attributable to lower group-wide rolling chip revenues and mass market table games revenues.

Net income for the first six months of 2015 was US\$216.5 million, compared with net income of US\$438.9 million in the comparable period of 2014. The year-over-year decrease in net income was primarily attributable to lower group-wide rolling chip volumes and rolling chip win rate, together with a lower contribution from the mass market table games segment.

Liquidity and Capital Resources

We have relied and intend to rely on our cash generated from our operations and our debt and equity financings to meet our financing needs and repay our indebtedness, as the case may be.

As of June 30, 2015, we held unrestricted cash and cash equivalents, bank deposits with original maturity over three months and restricted cash of US\$1,229.9 million, US\$105.0 million and US\$18.7 million, respectively, and HK\$9.75 billion (approximately US\$1.25 billion) of the 2015 Credit Facilities remained available for future drawdown.

Operating Activities

Operating cash flows are generally affected by changes in operating income and accounts receivable with VIP table games play and hotel operations conducted on a cash and credit basis and the remainder of the business, including mass market table games play, gaming machine play, food and beverage, and entertainment are conducted primarily on a cash basis.

Net cash provided by operating activities was US\$75.4 million for the second quarter of 2015, compared to US\$308.4 million for the second quarter of 2014. While net cash provided by operating activities was US\$208.5 million for the six months ended June 30, 2015, compared to US\$583.8 million for the six months ended June 30, 2014. The decrease in net cash provided by operating activities was mainly due to decline in underlying operating performance as described in the foregoing section and increased working capital for the operations.

Investing Activities

Net cash used in investing activities was US\$113.9 million for the second quarter of 2015, compared to net cash provided by investing activities of US\$341.6 million for the second quarter of 2014. The change was primarily due to the decrease in net withdrawal of bank deposits with original maturity over three months, increase in restricted cash, advance to shareholder and increased capital expenditure payments in the current quarter.

Net cash used in the investing activities of US\$113.9 million for the second quarter of 2015 mainly included capital expenditure payments of US\$66.1 million, our advance to shareholder of US\$35.0 million, change in restricted cash of US\$12.6 million and advance payments and deposits for acquisition of property and equipment of US\$4.1 million, partially offset with a net decrease in bank deposits with original maturity over three months of US\$5.6 million.

The net decrease in the amount of bank deposits with original maturity over three months was due to maturity of the deposits, partially offset by the new deposits placed during the quarter.

Our total capital expenditure payments for the second quarter of 2015 were US\$66.1 million, as compared to US\$51.7 million for the second quarter of 2014. Such capital expenditures for both periods were mainly associated with enhancements to our integrated resort offerings at City of Dreams. The increase was primarily due to the development of various projects at City of Dreams, including the fifth hotel tower and expansion of retail precinct.

Net cash used in investing activities was US\$121.0 million for the six months ended June 30, 2015, compared to net cash provided by investing activities of US\$402.8 million for the six months ended June 30, 2014. The change was primarily due to the decrease in net withdrawal of bank deposits with original maturity over three months, increase in restricted cash, increased capital expenditure payments, partially offset by the net repayment of advance to shareholder in the current period.

Net cash used in investing activities of US\$121.0 million for the six months ended June 30, 2015 mainly included capital expenditure payments of US\$153.0 million, our advance to shareholder of US\$43.3 million, change in restricted cash of US\$18.1 million and advance payments and deposits for acquisition of property and equipment of US\$12.2 million, partially offset with the proceed from the repayment of advance to shareholder of US\$105.4 million and a net decrease in bank deposits with original maturity over three months of US\$5.6 million.

Net cash provided by investing activities was US\$402.8 million for the six months ended June 30, 2014, primarily due to a withdrawal of bank deposits with original maturity over three months of US\$587.1 million, partially offset by our advance to shareholder of US\$76.8 million, capital expenditure payments of US\$88.5 million and advance payments and deposits for acquisition of property and equipment of US\$17.8 million.

The net decrease in the amount of bank deposits with original maturity over three months was due to maturity of the deposits, partially offset by the new deposits placed during the period.

Our total capital expenditure payments for the six months ended June 30, 2015 were US\$153.0 million, as compared to US\$88.5 million for the six months ended June 30, 2014. Such capital expenditures for both periods were mainly associated with enhancements to our integrated resort offerings at City of Dreams. We also paid US\$3.6 million for the scheduled installment of City of Dreams' land premium payment for the six months ended June 30, 2015.

Financing Activities

Net cash provided by financing activities amounted to US\$20.5 million for the second quarter of 2015 primarily represented the net proceeds from the refinancing of 2011 Credit Facilities by 2015 Credit Facilities of US\$148.3 million, advance from an affiliated company of US\$35.1 million, offset in part by the dividends payment of US\$150.0 million and the payment of debt issuance cost of US\$12.9 million associated with the 2015 Credit Facilities.

In June 2015, Melco Crown Macau completed an amendment to the 2011 Credit Facilities, known as the 2015 Credit Facilities, which reduced and removed certain restrictions on our business that were imposed by the covenants of the 2011 Credit Facilities and extended the repayment maturity date of the 2011 Credit Facilities. The 2015 Credit Facilities comprised a Hong Kong dollars term loan facility of HK\$3.90 billion (equivalent to approximately US\$500.0 million) with a term of 6 years and a multicurrency revolving credit facility of HK\$9.75 billion (equivalent to approximately US\$1.25 billion) with a term of 5 years. As of June 30, 2015, Melco Crown Macau drew down the entire term loan under the 2015 Credit Facilities and repaid the entire outstanding balance of the 2011 Credit Facilities, while the revolving credit facility under the 2015 Credit Facilities remained available for future drawdown, subject to satisfaction of certain conditions precedent.

Our company commenced expansion of its retail precinct at City of Dreams, which is expected to open in the first half of 2016. Our company has also continued the development of the fifth hotel tower at City of Dreams although its development plan and schedule is currently under review and may be subject to change after taking into account a range of factors, including the current and expected future operating environment in Macau and other potential uses of cash and future cash flow.

Any other future developments may be subject to further financing and a number of other factors, many of which are beyond our control.
